Hero Vired (Online Certification Program)
Full Stack Development

mar2023-Feb 2024

B.E in Mechanical Engineering
PES Institute of Technology And Management, Shimogga
GPA: 6.65

June 2017-Aug 2021

WORK EXPERIENCE

Junior Software Developer Intern | RunwayProptech(Vivasva) Sep 2022-Mar 2023

- Worked on migrating the project to the latest Java version, ensuring compatibility and leveraging new language features and enhancements.

- Orchestrated the transition to a higher Spring framework version, enhancing performance to optimize the project.

- Contributed to an existing Spring MVC project by resolving critical issues and adding new features to enhance functionality and user experience.

PROJECTS

Blogging platform project using Spring Boot

This website developed using **Spring Boot.**

Features
User Authentication:
- Implemented secure user registration, login, and password management.
- Utilized Spring Security for robust authentication.
Endpoint Security:
- Secured user endpoints and user-related operations.
- Implemented role-based access controls to ensure data security.
